

PRESSES

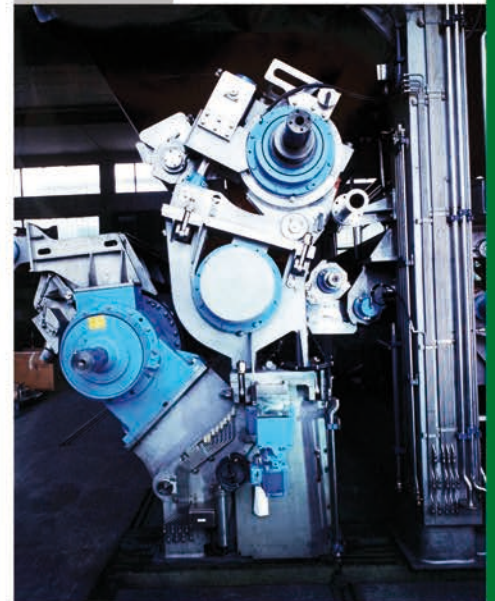

De Iulii C.&A. S.p.A., thanks to its experience of more than 50 years as manufacturer of paper machines and to the experience had directly on the paper machine, is able to construct compact high efficiency press sections for paper and board machines.

The design and the realization of new press sections or rebuilding of existing plants, besides to grant the maximum dryness degree, take into consideration the following guidelines:

- Execution simplicity and management cheapness;
- Functionality and maximum working safety.

The technical staff is always at complete disposal to study, design and make personalized solutions, that will meet the most various customer's requirements.
