**EMAIL:** U.COMMERCIALE@DEIULIIS.IT

**WEBSITE:** WWW.DEIULIIS.IT

**DE IULIIS C. & A.**  
PAPER MACHINERY

**De Iuliis can supply complete drying section or design modern conception rebuilding, fit to optimize the paper machine efficiency, according to the paper or board typology and to the working speeds.**

Thanks to many references in this paper machine section, De Iuliis is able to supply complete turn-key projects for dryer section rebuilding, optimizing the design of the existent paper machine in order to obtain :

- Energy saving
- Machine optimization to semplify the operators work, increasing the safety of the paper machine
- Reduction of open draws and/or sheet flag-waving
- Tail threading system optimization
- Cleaning improvement of the drying fabrics

# DJM Dryers

Moreover De Iuliis produces his own dryers.

The DJM Dryer is a modern **steel made** dryer, that compared to traditional cast iron ones ensures:

- Energy cost savings
- Useful width increasing
- Reduction of wet edge problems during paper drying.
- Safety increasing
- Maintenance reducing

All dryers are 100% made in Italy, and guarantee maximum quality and safety standards:

- Shell and welding ultrasonic inspection
- Dimensional inspections after manufacturing
- Quality certificate for all used material
- Thermal treatment
- PED Standards and certification

DJM dryer can be supplied complete with :

- Turbulence bars to increase cylinder drying capacity
- Oil lubricated bearings housings
- Rotary joint with flanged assembly.
- Thermal insulation
